would love to meet you

RAW's mission is to surround women with all the skills, confidence, and support they need to turn a life of crime into a life of promise.

To achieve this, RAW has two separate programmes available to women on the inside and one on the outside. Here's a short explanation of each.

raw on the inside

Building hope and ambition for a better future with weekly lifestyle and education workshops

Each month, inside is a series of lifestyle learning workshops that are available to all women in low custody on the self-care units.

The purpose of these workshops is to introduce some positivity and inspiration to your life, to kickstart your thinking about a new and different set of lifestyle choices that could change what you do with your future.

Examples of Lifestyle Learning Workshops RAW has completed:

- Wellness - Better Nutrition, Better Breathing
- Creativity - Floral Art
- Independence & Leadership Skills
- Reconnecting, Meet and Greet to their cultural identity, heritage and workshops through performance

"I really believe that good things can happen and are happening to me and other women all thanks to RAW. Really everything you represent and bring to our lives is special, kind and caring... To be part of RAW on the inside is a dream for me and I will surely embrace all that comes my way today. Tomorrow and in the future." - Lisa
