

COLLECTIVEIMPACT

Auckland 2014

29 + 30 OCTOBER 2014 | CROWNE PLAZA | AUCKLAND | www.collectiveimpact.co.nz

Collective Impact offers a new way of resolving complex social problems with a vision for creating lasting change. A fresh and yet somehow old methodology and framework for communities to come together and address complex social problems. Internationally there is an awareness that it takes a combination of community, government, business and NGOs to work collaboratively if we are to seriously address the needs that persist. A special focus of this event will be around specific challenges facing the Auckland communities with keynote speakers discussing education, Maori and Pasifika potential and local economic development.
