Join us for a Strategic Pay Remuneration Briefing this May

Be in quick and register to keep up to date with the latest trends in remuneration in the New Zealand market by joining us at a Remuneration Briefing this May.

Hosted at venues across the country and online, these briefings will examine our latest New Zealand Remuneration market information findings and provide you with key industry insights into remuneration and HR practices.

You will hear from guest speaker [Dr Ann Hutchison](#) from the University of Auckland who will present the findings of the recent research into performance management of top management teams in New Zealand. A presentation from [NZIER](#) will be given on the current economic landscape focusing on business confidence and trading.

Duration: 1.5-2 hours | **Cost:** Complimentary | **Locations, Dates and Times:** Below

Alongside the briefings in selected venues, you are also invited to attend a **Pay Equity Approaches Workshop**.

Pay equity means equal pay for equal work regardless of gender, nationality, religion, age or sexual orientation. This also includes equal pay for work that is of equal value where value of work is assessed in terms of skills, knowledge, responsibility, effort and working conditions. Other considerations in setting remuneration can include market factors, productivity and performance. As more emphasis is placed on greater transparency in business and pay, pay equity continues to be of importance to NZ businesses.

By taking part in our workshop, you will gain a thorough understanding of pay equity approaches with a particular focus on gender.

Duration: 1.5 hours | **Cost:** \$150+GST | **Locations, Dates and Times:** Below
